Type aktivitet/projekt/udstyr/enhed, som donationen ydes til	The grant amount has been granted to support the establishment and development of the Danish National Urticaria Treatment Database (Dan-NUT).
Formålet med aktiviteten/projektet/udstyret/enheden, som donationen gives til	There are 6 dermatology Departments in Denmark. The primary development of the database will take place in the departments in Aarhus and Copenhagen, and once ready, the other Departments will be invited to participate along with the Danish pulmonary medicine departments who would want to participate. Each department will have ownership of their own data. A steering committee with a member from each of the participating departments will be appointed. For data extraction, all members must approve the extraction of their own data. Contributors to the database will, in line with the other databases in Denmark, be offered yearly statistics from the database.
