

Hospitalsdonationer givet Novartis Healthcare A/S

	HisBio database
Navn på aktivitet/projekt/udstyr/enhed, som donation støtter	
Navn(e) på hospitalet/afdelingen eller lignende, som håndterer aktiviteten, projektet, udstyret eller enheden	Bispebjerg Hospital, Department of Dermatology
Type aktivitet/projekt/udstyr/enhed, som donationen ydes til	Grant
Formålet med aktiviteten/projektet/udstyret/enheden, som donationen gives til	Q4 2021 - Q1 2023
Tidshorisont (hvis muligt)	Grant will be used to develop the HisBio database - a state-of-the-art prospective registry with high quality data, including safety, efficacy measures, and patient reported outcomes on all HS patients treated with biologics or small-molecule therapies nationwide in Denmark. All departments in Denmark that are treating HS patients have declared their willingness to participate in data collection for this HS treatment database. The applicant has informed that establishment of the database is expected to occur between Q4 2021 and Q1 2023. Novartis expects to receive semi-annual updates on the status of the establishment of the HisBio database.
Den finansielle bevillingsstørrelse	400.000 DKK
Naturaliers omfang, indhold og anslæde værdi	N/A
